CIRCULAR CALENDAR: HOW TO USE

STEP 1

Go to <https://www.fathersalphabet.com/date/> to find today's date in Father's Calendar. It will look something like this:

Tuesday, May 06, 2025, before sunset, is the 2nd day of the 3rd month, The 4th day of the week.	Tuesday, May 06, 2025, after sunset, is the 3rd day of the 3rd month, The 5th day of the week.
---	--

STEP 2

Print one of the circular calendars in this Kit and mark the date. There's a calendar with numbers already filled in, as well as a blank copy you can fill in/color in yourself.

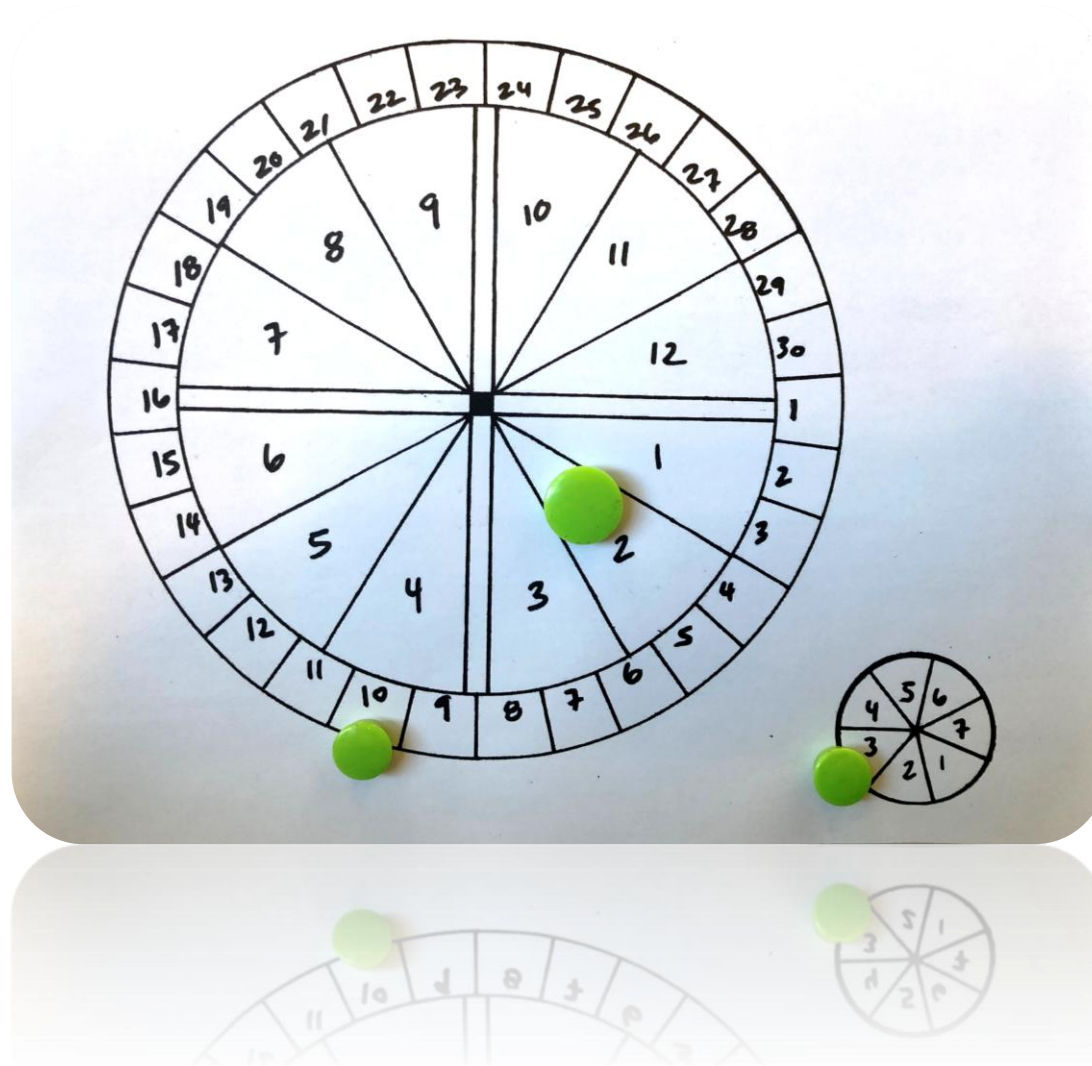

STEP 3

You'll need to know how many days are in each month so you know when to change the month on your calendar:

Month 1: 30 days	Month 7: 30 days
Month 2: 30 days	Month 8: 30 days
Month 3: 31 days	Month 9: 31 days
Month 4: 30 days	Month 10: 30 days
Month 5: 30 days	Month 11: 30 days
Month 6: 31 days	Month 12: 31 days

EXAMPLES

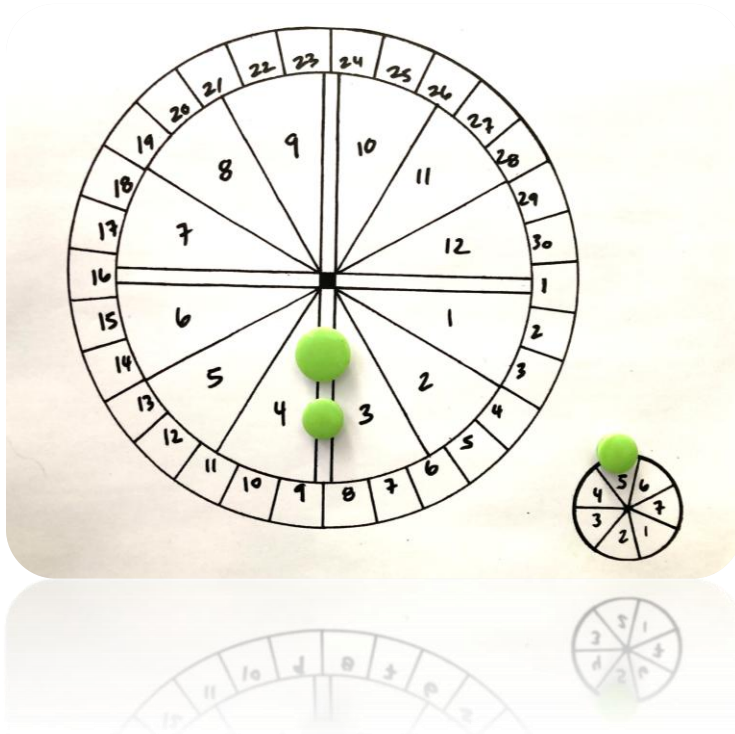

In the example below, it's the 10th day of the 2nd month which is the 3rd day of the week.

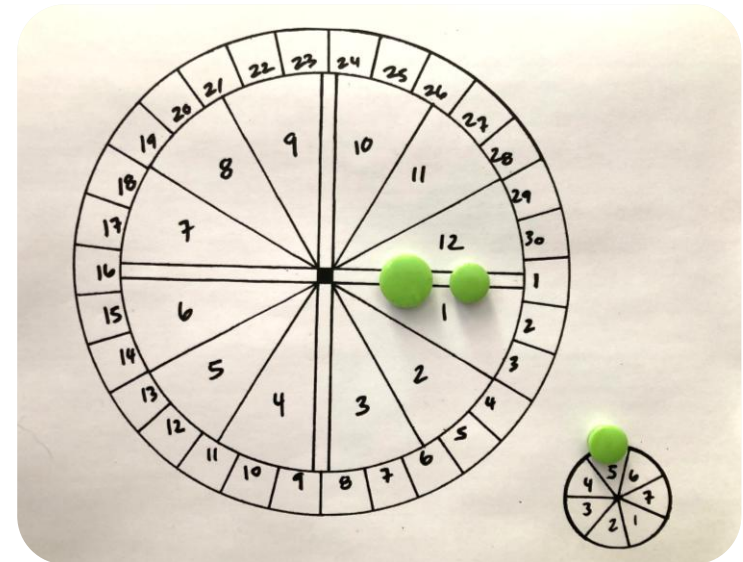

EXAMPLES

Use the crossbar lines to display the 31st days of the 3rd month, 6th month, 9th month, and 12th month (the “tequphah” dates).

Here’s what the 31st day of the 3th month would look like. It’s in between the 3rd and 4th month:

The 31st day of the 12th month:

TIP FOR DISPLAYING SABBATHS

You can add the sabbaths for each month to the calendar.

In the picture, it's the 10th day of the 2nd month and the sabbaths are marked with the darker pins.

In months 1, 4, 7, and 10 the sabbaths are on days 2, 9, 16, 23, and 30

In months 2, 5, 8, and 11 the sabbaths are on days 7, 14, 21, and 28

In months 3, 6, 9, and 10 the sabbaths are on days 5, 12, 19, and 26

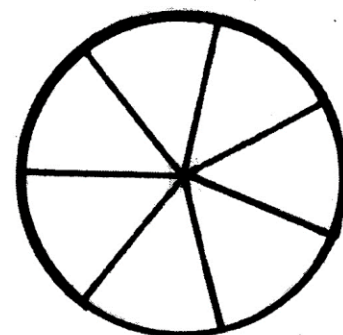

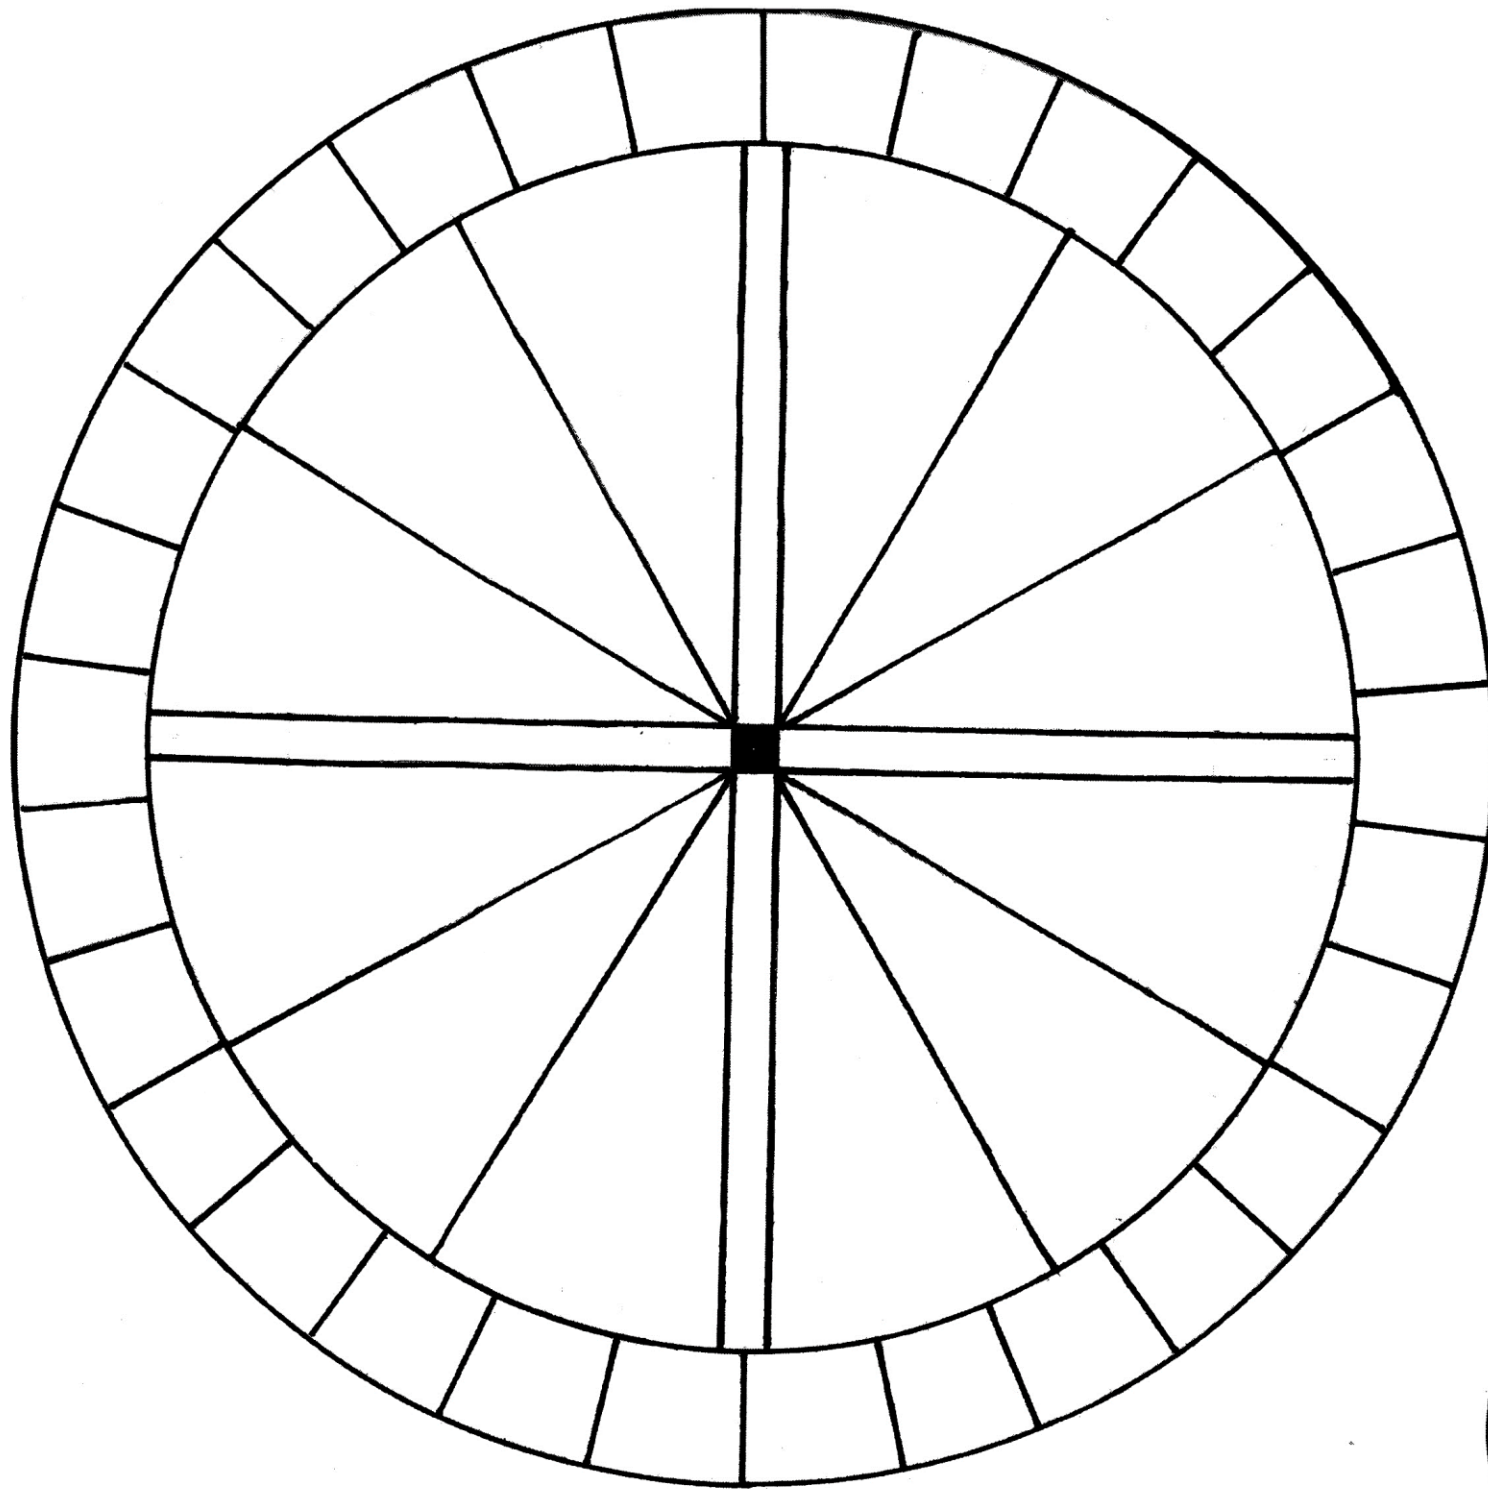

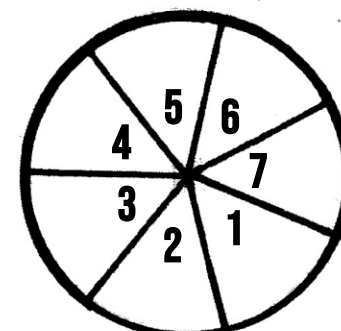

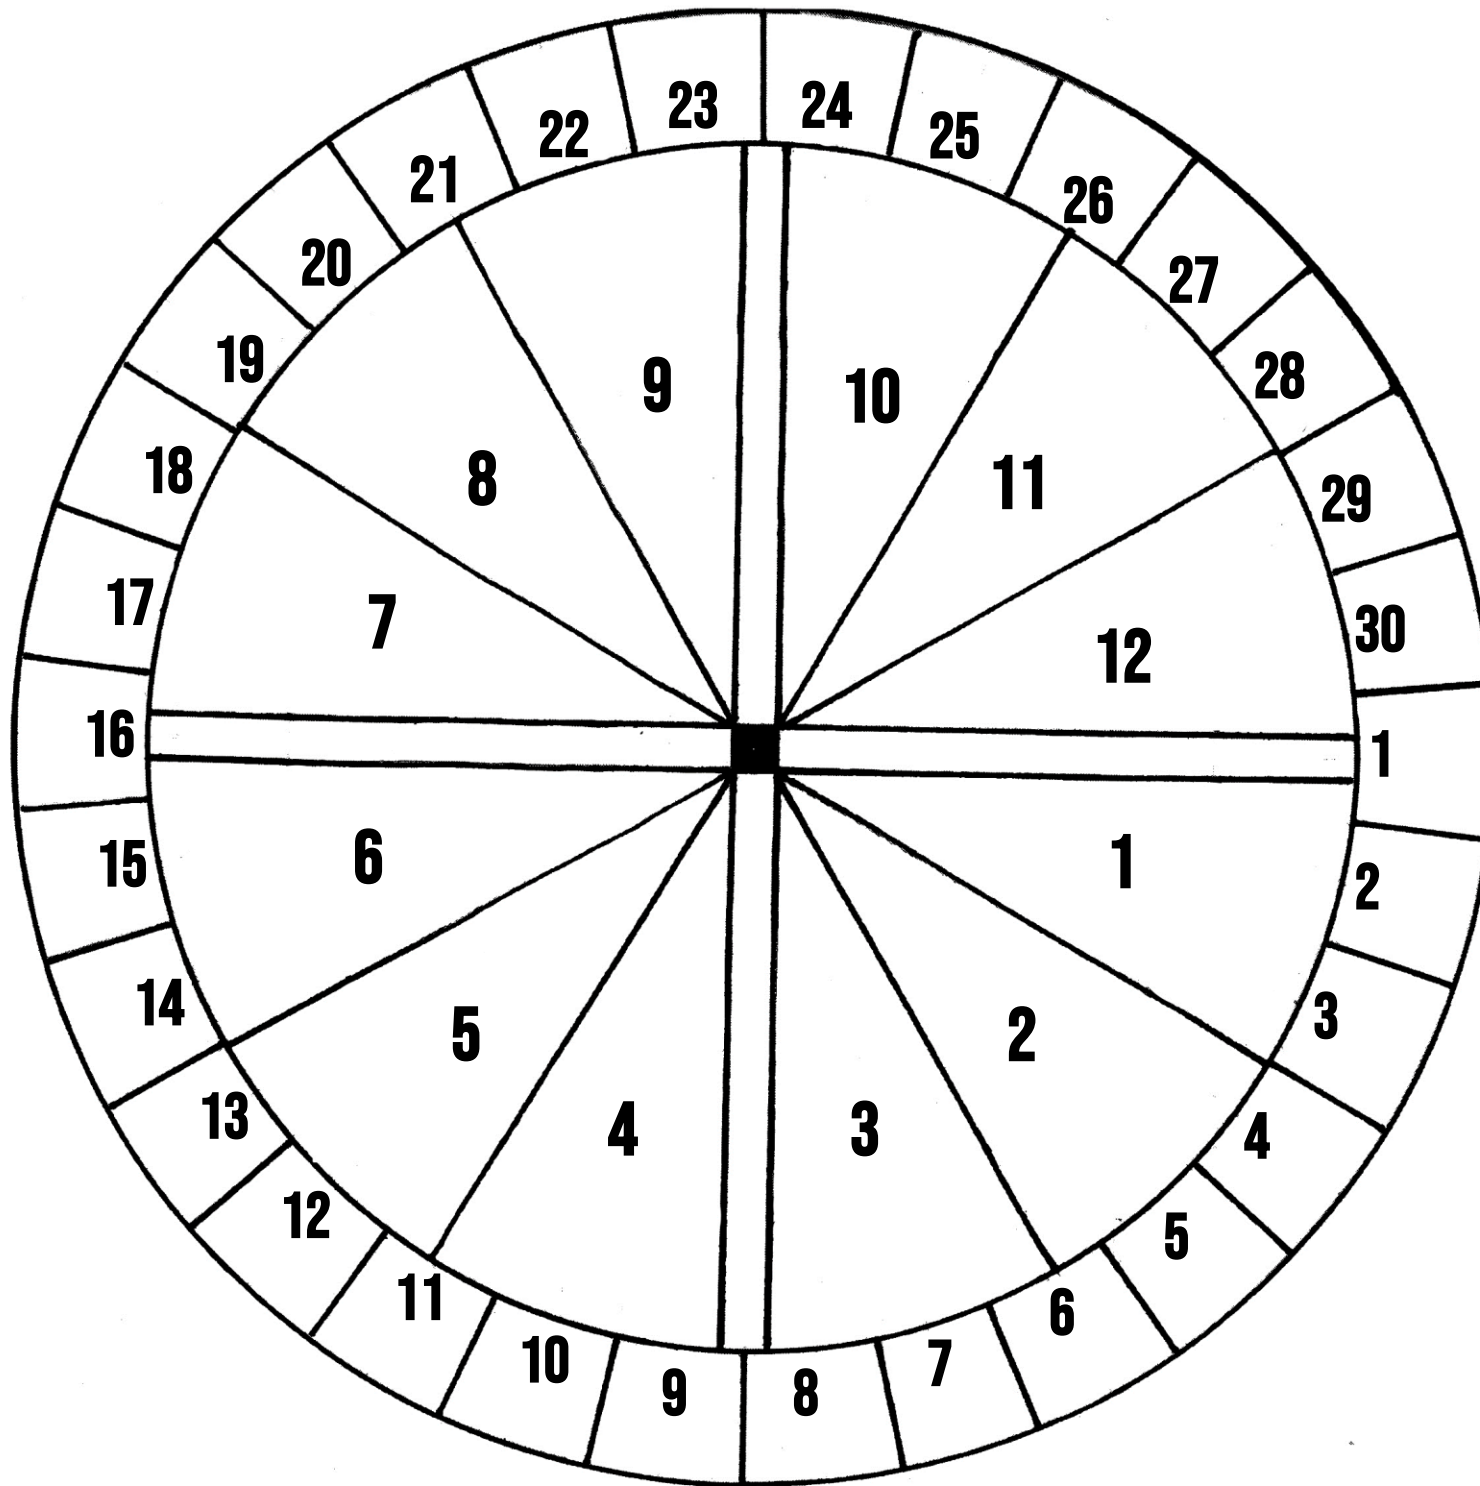

TIP FOR LOOKING UP DATES

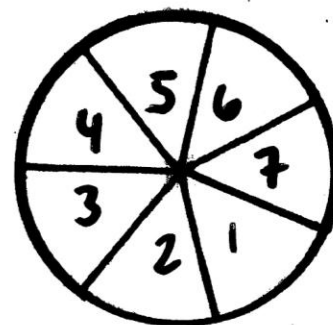

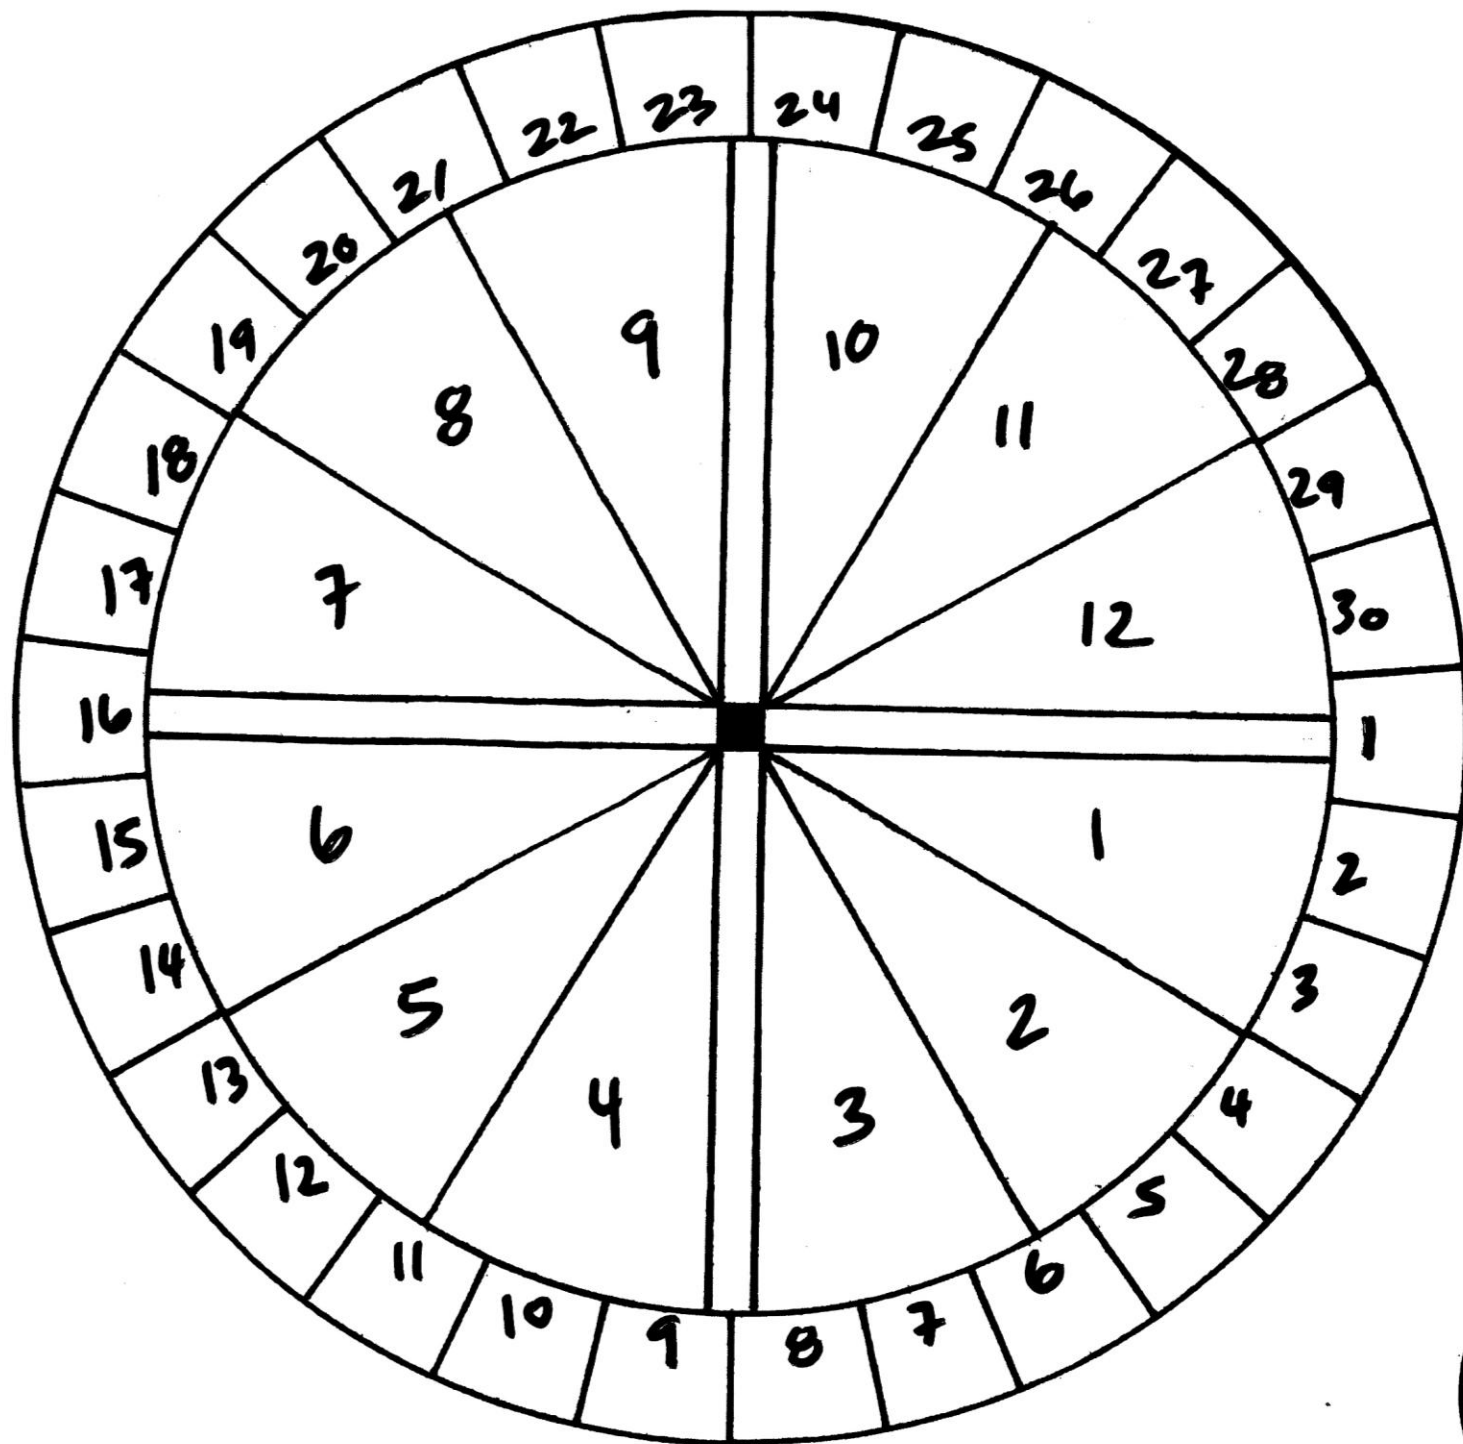

To find out today's date, visit <https://www.fathersalphabet.com/date/>

To look up a past or future date, download the [Excel Version of the Calendar Kit](#) and see the Date Lookup Tool tab. Sample:

Date Lookup Tool			
Enter a Gregorian date here (MM/DD/YYYY) -->	01/01/1975	Date on Father's Calendar (after sunset) -->	27th day of the 8th month, the 6th day of the week

CALENDAR TABLES

The following table calendars are useful if you want a bigger picture of a full year, or if you want to count the number of days between two dates.
